Dear Sir,

Re. Periyar Temporary Gate.
----------------oOo----------------

The enclosed letter dated the 8th. December last, addressed to A. H. Garrett Esq, together with the blue print referred to, has been returned to us here owing to Mr. Garrett being in England on its arrival at Madras. If Mr. Garrett is still away, we shall be glad if you will do what is necessary in connection with this communication.

We are, Dear Sir,

Yours very truly,

RANSOMES & RAPIER LIMITED.

1904

Dear Sir,

Periyar Temporary Gate.
----------------ooo--------------- 9.3.53 / 65

We beg to thank you for your letter of the 9th. November, enclosing blue print of the masonry, as actually carried out. This drawing shews the grooves somewhat smaller than shewn on the drawings which we previously had to work to, and we have therefore had to modify our design to suit.

We enclose blue print number 4,870 shewing the amended section, and we are tendering to the India Office for the work.

We are sorry that, owing to the recent considerable advance in the cost of materials, we have had to somewhat increase our price to cover this.

With reference to your last paragraph, we are sorry that through a clerical error the maximum head was stated to be 150·00 instead of 155·00, so that the matter is all in order.

We are, Dear Sir,
Yours very truly,

RANSOMES & RAPIER LIMITED.
Wilfrid Stokes

NOTES.

Temporary gate in front of the Periyar
Head Sluice.

Temporary gate in front of the Periyar Head sluice P.W.D., Irrigation Branch.

D.I.

While forwarding an estimate for the temporary gate in front of the Periyar Head sluice, Messrs. Ransomes & Rapier requested (in their letter dated 27th April 1905) that when the order for the gate was given they might be furnished with a correct drawing of the masonry as executed, so that the parts could be designed to fit with the least possible work. Accordingly after the despatch of the order by telegram on the 7th November last, a drawing of the masonry as executed together with the other information asked for was sent to Messrs Ransomes & Rapier with this office letter No.3535 dated 9-11-05. As it had been stated in their letter of the 27th April 1905 accompanying the estimate that the gate would be made strong enough to take the full head of water i.e., R.L. + 150 and as the head of water which the present Stoney's gate had been designed to take was + 155.00, Messrs Ransomes & Rapier were asked to make the temporary gate strong enough to stand the increased head and an addition on this account was made in the estimate of Rs17,000 approved in G.O., No.929-I, dated 2-10-05. They now forward a copy of the letter written by them to Mr. Garrett in December last in which they state that the drawing of the masonry sent by this office shows the grooves somewhat smaller than those which they worked to and that they have consequently to modify their design as shown in the plan now sent. It is also stated that the maximum head of the gate was by mistake stated to be + 150 instead of + 155 and that the matter is in order. At the same time the Company bring to notice that owing to the considerable advance in the cost of materials they have had to increase their quotation.

somewhat. The price which was formerly quoted for the gate was £ 640 or ₹9600 and they do not say by how much it has now been raised. As the sanctioned estimate of ₹17,000 contains a provision of about ₹1,500 to make the gate take an extra 5 ft. head of water, which will now be saved, it is thought that the increase in the price of the gate may be covered by the amount of the above saving and that there will be no necessity for a revised estimate. The papers may be recorded till receipt of communication from the India Office regarding the revised quotation.

asst. [illegible] 24.4.06

No action at present seems required

L O

[illegible]

26/4/06.

I do not consider 5½ months as 'at present' we have heard nothing from the India office but I think we had an advice through the ordy course stating that the shutter had been shipped about two months ago.

[illegible] 12/10.

No paper ought to be allowed to lie over as in this case for 5½ months without enquiring as to whether any

PUBLIC WORKS DEPARTMENT
(Irrigation Branch).

further action was required.
I should now like to know whether the shutter has been shipped or not & whether any advice has been sent to S.E. so that he may be in a position to make his arrangements for erecting the shutter in plenty of time.
